

COMPANY

Silicone & Specialties is an Italian Company specialising in offering a high quality range of Silicone articles.

Our Company is based on a high level of professional and technical support meeting the most stringent customer requirements in all industry sectors.

Established and directly managed by Emanuele Samuele Berna, the Company is also supported by the renowned French Company Sterne SAS, which is one of the most innovative and technically capable Companies in the field of Silicone elastomers.

Silicones & Specialties is a strategic and exclusive partner and agent for Sterne SAS in the Italian and Italian Swiss market.

PRODUCTION CAPABILITIES

Based in a modern factory exceeding 3500sqm production is divided into a main industrial sector and 3 clean rooms comprising of a total of 650sqm for special articles for the pharmaceutical, medical and biomedical sectors.

Our production equipment includes 7 extrusion and co-extrusion lines, injection and compression moulding machines suitable for Liquid Silicone Rubber (LSR) and High Consistency Rubber (HCR).

Thanks to a qualified process of extrusion and vulcanisation we can manufacture both compact (solid) and sponge Silicone articles as well as Fluoro Elastomers and Viton®.

QUALITY AND CERTIFICATION

Our R&D and sales department are at our customers' disposal in terms of satisfying specific technical, regulatory and confidentiality (Non-Disclosure Agreements) requirements.

Quality assured system programs and full traceability throughout production are in accordance with our certification ISO 9001:2000 and ISO 13485:2003.

Also, thanks to our advanced software (ie ; Catia, Solidworks, Inventors, Moldflow etc) we can implement a vast array of projects, carry out feasibility studies, perform mechanical and chemical tests and develop customised compounds to suit specific applications.

Colour matching, sampling and comprehensive certificates of analysis are also available as required.

WHY SILICONE & SPECIALTIES?

Many years of experience, a high degree of technical knowledge and capabilities and a superb level of service are at our customers' disposal. From the conception of an idea right through to final manufacture our focus is to supply our customers with high quality Silicone products and a competent, unrivalled service.

We look forward to being your strategic partner in Silicones.
